- Managing Resources

Learning activities

Discuss “How are we going to make it?”

Introduce the concepts of resources and production.

Explain the importance of working together and the value of each individual within the team.

In groups, agree and assign tasks and work stations to individuals or groups, emphasising their role in the team. This will be dependent on the product chosen but could include a production line arrangement e.g. cutting, assembling, packaging.

Gather together and set out resources needed to make the product.

Pupils cooperate to make the product, tidy up and store product.

Pupils discuss what they liked doing best and how they would share the jobs differently next time.

Activity 8: We can make it
