

MoneySense Enterprise content

An enterprising journey

MoneySense
Making sense of money

The MoneySense programme has a strong enterprise focus that runs through the content for all age groups.

Classroom lessons

These topics are designed to be used by teachers in the classroom. They include lesson plans, presentations, activity sheets and interactive elements such as a videos and games.

5-8 years old

Where does money come from?

This topic explores where people get money from, including working to earn money. It helps pupils understand about earning and saving for the future.

8-12 years old

Raising money for charity

This topic introduces pupils to fundraising for charity and how to plan and set up an event. This includes how budgeting and planning will allow them to maximise profit.

12-16 years old

Designing an app

This topic offers insights into start-up and running costs involved in a business venture. It demonstrates the planning needed to be an effective entrepreneur and the importance of researching ideas and their competition.

16-18 years old

Enterprise: Starting a business

This topic looks at starting a new business and putting together a business plan. It shows how an enterprising approach to work could help them save for an upcoming life goal.

Workshops

These workshops are led by teachers, and bank employees provide support as well as real-world insight and experience.

12-16 years old

Make a difference

Students are challenged to work in groups to create a business plan for a social enterprise aimed at addressing a problem in their school/local community. They consider how money can be reinvested to benefit the wider community. The students also present to a panel of judges.

16-18 years old

Designing a crowd funded project

Students work in groups to research and present a fully costed business plan for a crowd funded project; including their ideas for the project, their plan for investment and the returns they will offer to funders.

Online interactive games

Start-up costs simulator

If you've had a great idea for a business, getting started might be cheaper than you think. You can explore the costs here.

Business Tool
Costs Simulator

Here you can review your start-up costs
